

LOOKING FORWARD / 2015

The Office of Violence Against Women awarded us a \$350,000 grant to continue the Domestic Violence and Mental Health Collaboration Project. We will be creating more family law-related tools and offering courses in Mindfulness Based Stress Reduction.

Our LGBTQ Access Project toolkit will be published online in 2015 and available to organizations in King County and across the country.

The King County Coalition Against Domestic Violence will have a new name! We will be working with Rusty George Creative to help us envision and design a new look and messaging to reflect the expansion of our mission and scope of work. Stay tuned!
